

Art27 Scotland is an artist-led, community driven company. Our work focuses on Arts for Dignity, Justice and Peace. We take our mission from Article 27 of the Declaration of Human Rights, which states that everyone has the right to participate in the culture of their community and to enjoy the arts.

One key area of exploration is around Cultural Rights - what they mean in arts practice, and how they are upheld, protected and progressed. We see cultural rights as indivisible from human rights, recognising the complex intercultural nature of our diverse community in Edinburgh's Southside and the challenges and opportunities that this brings in the context of migration. Our Culture Collective Artists in Residence work with communities in their first language, and we facilitate a cultural orientation and development for displaced and migrant professional artists.
